**THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED.** THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

**THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED.** SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

***EXAMINER'S AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Applicant canceled the base claim 16 while the claim 18 depends upon the base claim 16. Therefore, all claim limitations set forth in the original base claim 16 should be incorporated into the claim 18. Applicant also canceled the base claim 32 while the claim 33 depends upon the base claim 32. Therefore, all claim limitations set forth in the original base claim 32 should be incorporated into the claim 33. The application has been amended as follows:

18. (Currently Amended) [The method of claim 16 further comprising constraining portions of the garment to reside within or outside of one or more shells defined around the mannequin in each rendering frame during the draping and collision simulation, wherein each shell is a three-dimensional construct designed to mimic the physical interaction of the garment with another garment.] A method for producing an image of a computer-simulated mannequin wearing a garment as defined by selected mannequin and garment parameter values, comprising:  
generating objects corresponding to a first mannequin and a first garment placed in a simulation scene within a three-dimensional modeling environment;  
simulating draping and collision of the first garment with the first mannequin within the simulation scene to generate a first three-dimensional rendering frame of the first mannequin wearing the first garment;

generating a second rendering frame containing a second mannequin and a second garment as defined by selected parameter values that specify different dimensions from the first mannequin and/or first garment by shape blending corresponding objects of the first rendering frame, wherein the shape blending is performed by linearly combining parameters of the first rendering frame and performing a partial draping and collision simulation;

rendering an image from the second rendering frame; and

constraining portions of the garment to reside within or outside of one or more shells defined around the mannequin in each rendering frame during the draping and collision simulation, wherein each shell is a three-dimensional construct designed to mimic the physical interaction of the garment with another garment.

33. (Currently Amended) [The system of claim 32 further comprising means for constraining portions of the garment to reside within or outside of one or more shells defined around the mannequin in each rendering frame during the draping and collision simulation, wherein each shell is a three-dimensional construct designed to mimic the physical interaction of the garment with another garment.] A system for generating images of a computer-simulated mannequin wearing a garment as defined by selected mannequin and garment parameter values, comprising:

a user interface by which a user selects a mannequin and one or more garments to be worn by the mannequin, wherein the mannequin and garments selected may be further defined by specific mannequin and garment parameter values;

a three-dimensional modeling environment for generating objects corresponding to a representative mannequin and a representative garment placed in a simulation scene and for simulating draping and collision of the representative garment with the representative mannequin within the simulation scene to generate a first three-dimensional rendering frame of the mannequin wearing the garment;

means for generating a second rendering frame containing the selected mannequin and the selected garment as defined by selected parameter values that specify different dimensions from the representative mannequin and/or representative garment by shape blending corresponding objects of the first rendering frame, wherein the shape blending is performed by linearly combining parameters of the first rendering frame and performing a partial draping and collision simulation;

means for rendering an image from the second rendering frame; and

means for constraining portions of the garment to reside within or outside of one or more shells defined around the mannequin in each rendering frame during the draping and collision simulation, wherein each shell is a three-dimensional construct designed to mimic the physical interaction of the garment with another garment.

#### ***Reasons for Allowance***

Claims 1-15, 18-31, and 33-45 of the amendment filed 8/17/2009 are allowed. The following is an examiner's statement of reasons for allowance of these claims: Nothing in the prior art anticipates or suggests, "constraining portions of the garment to reside within or outside

of one or more shells defined around the mannequin in each rendering frame during the draping and collision simulation, wherein each shell is a three-dimensional construct designed to mimic the physical interaction of the garment with another garment”, in a method for producing an image of a computer-simulated mannequin wearing a garment as defined by selected mannequin and garment parameter values, set forth in the base claim 1. The claims 2-15, 18-31, and 33-45 are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
